# Facials

## HL - professional skincare – advanced facials - natural peels

Our treatments are from the best of science and nature. We use formulas with high levels of active ingredients that combined with the skill of Aurora-Wellbeing skin care cosmetologists give visible results.

These advanced facial peels can be extremely helpful for improving skin tone, texture, hyper-pigmentation. To ensure best and long lasting results the treatment at the clinic/spa should be accompanied by daily use of an advanced sunscreen SPF15 or higher along with a customized skincare routine.

## Gently Clean Facial

A deep cleanse facial aimed at all skin types, it is designed to clean disinfect, and refresh the skin. Antiseptic conditioning is provided in order to deeply cleanse the skin. A special face lotion is applied to open the pores, flush away dirt and bacteria and prepare your skin for a professional deep cleaning. The aesthetics of the skin will be greatly improved with increased elasticity and vitality.

**60 minutes**

**£68.00**

## Cryotherapy

CryoPen™ is an advanced cryotherapy innovation that is a fast, effective, safe and new solution for removal of skin imperfections. Procedures typically last from 5 to 30 seconds, so you can be in and out of the salon quickly.

The CryoPen™ emits a fine jet of nitrous oxide under high pressure, which allows the clinician to work with millimetre precision. This destroys the tissue by freezing the inter-cellular fluid, forming ice shards and crystals which rupture the membrane, thereby destroying the cell. That means there will be no collateral damage to healthy tissue. It's so incredibly accurate and practical.

Cosmetic procedures such as skin tags, milia and cherry angiomas are no longer being treated by many doctors on the NHS. With the CryoPen™ you can now have these treatments in the beauty salon.

Cryopen offers the ideal treatment for:

Skin tags	Warts
Solar lentigo	Cherry angimo
Age spots	Viral verrucae
Milia
